DETAILED ACTION

Claims 1-6 are under consideration in this application.

Claims 7-14 are held withdrawn from consideration in this application as being drawn to nonelected subject matter 37 CFR 1.142(b).

Election/Restrictions

Applicant's election with traverse of Group I in the reply filed on November 22, 2005 is acknowledged. The traversal is on the ground(s) that Group II is merely a preferred embodiment of producing the final product. This is not found persuasive because for the reasons clearly set forth in the previous Office action. Group II is drawn to the production of the **intermediate and not the final product** as incorrectly asserted by applicants. The reaction of 2-nitrobenzaldehyde with isobutyl acetoacetate in the presence of piperidine formate does **not produce the final product**.

The requirement is still deemed sound and proper and is therefore made FINAL.

Allowable Subject Matter

Claims 1-6 are allowed because the prior art does not teach or suggest the instant solvent, *i.e.*, cyclohexane and/or n-hexane.

This application is in condition for allowance except for the presence of claims 7-14 to an invention non-elected with traverse in the reply filed on November 22, 2005. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and

pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
